**Conference

Sessions**

The California Department of Aging (CDA) and the California Department of Health Care Services (DHCS) will provide an education course titled *CBAS 101: Understanding the Basics of the CBAS Program Model and Program Requirements*. This course is for CBAS center staff, owners, board members, managed care plans and others who want a basic introduction to the CBAS program and benefit, CBAS provider standards for certification, and the status of the CBAS Waiver Amendment submitted in June 2014 to the Centers for Medicare & Medicaid Services. This training should be especially beneficial to those who are new to CBAS.

In addition to the CBAS training session and updates provided by DHCS and CDA, the CAADS conference will offer a variety of plenary sessions and education courses relevant to implementing a successful, person-centered CBAS program and delivering quality services that promote the health, mental health and functional abilities of CBAS participants.
